

Metalik® Inkjet silver 076SSI

High-Tack Printable Metallic Polyester Films

Applications

- Suitable for permanent lamination onto display boards & other smooth surfaces
- POS decoration with or without print
- Ideal for shop-fitting, perfumeries, luxury boutiques, and Christmas campaigns
- Turn any smooth surface into metallic
- Ideal for packaging with metallic effect, our silver film is recommended for Color Logic® software
- Combine permanent print and CAD applications, for example doming
- Also available in Metallic Gold & Rose Gold

Benefits

- Bright shiny Silver finish on both sides
- Perfect film for lamination on boards, for example Dibond
- Very smooth finish, close to mirror effect
- High-tack adhesive for strong permanent adhesion
- Can be cut and weeded
- Corrosion free - 3 years outdoor durability

Certified for
HP Latex Inks

Post Printing Information for Latex & Solvent Inks:

As with all filmic media, this product must be allowed to “gas-out” after printing. This can be achieved by leaving the prints face up, ideally 24+ hours, to set, dry and harden. If unable to do this e.g. with a long print run: after printing the roll stand it vertically and loosely unwind the printed roll as much as possible, to allow air in and gases/solvents out.

Recommended Conditions:

Printroom	15°C - 30°C	30% - 65% RH
Usage	-40°C - 80°C	10% - 90% RH
Storage	10°C - 20°C	20% - 50% RH
