KERNOWJET BLOCKOUT PP 165

KernowJet PP Blockout 165 is a premium, multi-layered polypropylene film designed for use in high-quality printing applications. With its opacity, it is ideal for blockout applications where you don't want any show-through of the substrate behind it. This product has a unique coating that ensures great ink adhesion and excellent print quality. KernowJet Blockout PP 165 is available in a range of sizes and is compatible with all leading ink technologies, making it a versatile choice for a wide range of printing applications.

WHY CHOOSE US?

KernowJet Blockout PP 165 ensures you receive a high-quality and versatile product that is perfect for a range of applications. Our Blockout PP is scratch-resistant, tear-resistant, and can be used for both indoor and outdoor signage, displays, and banners. Additionally, the blockout feature ensures that no light passes through, providing excellent opacity for double-sided printing. With our commitment to innovation and customer satisfaction, you can trust Kernow Coatings to provide you with the best materials for your printing needs.
