

## KERNOWJET METALIK REMOVABLE

With a both sides matching mirror look finish and colour, KernowJet Metalik<sup>®</sup> Removable is ideal for creating eye-catching window displays. The removable adhesive is suitable for short-term decoration. With larger areas or wherever it is more convenient, the film can be wet applied.

### WHY CHOOSE US?

KernowJet Metalik films are designed to fulfil all requirements of the Sign and Wide-Format Printing industry. KernowJet Metalik can be applied or laminated manually or mechanically, with wet or dry application techniques. Applied to perfectly smooth substrates like glass, the films have a mirror look finish. On demand, we can create specific metallized colours in different shades, for example metallic red, blue, and green. Imagination is your only limit.

### FEATURES

- Same colour effect on both sides
- Removable adhesive, perfect for wet-application
- Cuts perfectly, weeds easily
- Very smooth finish, close to mirror effect
- Corrosion free for outdoor durability
- Silver film up to 3 years outdoor use without fade, Gold 1 year outdoor use
